PROFILE

I am a 4th-year Information Technology student, active in student organizations, and currently the Chair of Digit ry. I have experience in team coordination, event planning, budgeting responsibilities, and broad communication skills.

I am skilled in Python, Java, and JavaScript, with a solid foundation in React- and Express-based applications. Additionally, I possess Photoshop and other artistic skills, as well as a basic understanding of economics and business from my minor studies.

My peers see me as a cheerful and active team player who succeeds in guidance but is also capable of taking initiative when familiarized with tasks and responsibilities.

EXPERIENCE

Chairperson of the Board
1/2025 - 12/2025

Digit ry

I'm the Chairperson of the Guild of IT Students at the University of Turku for the year 2025. My tasks include representing the organization, team coordination, organization's event planning, communication skills, problem-solving, team leadership and budgetary responsibility

Event and leisure coordinator
1/2024 - 12/2024

Digit ry

I was responsible for organizing leisure events for Digit members in 2024, for 50-200 attendees. My tasks included event planning and management, organizing parties, budget management, participant engagement, logistics coordination and overseeing schedules and team work.

Research Assistant
8/2025-5/2026

University of Turku

Continuation to my trainee period at Turku Institute of Learning Analytics, working part time creating computational thinking content in the ViLLE syystem.

Trainee
5/2025-8/2025

University of Turku

Assisted the Learning Analytics department in various projects
Focused on computational thinking and mathematics content creation

Logistics worker
3/2022 - 12/2024

Carina Solutions Oy

I was part of the pre-assembly group of Meyer's cruise ships
